

## STORM SUMMARY 1-3-21

An upper level system spread light snow into the area 12-2am and exited the area 6-8am from northwest to southwest. Some rain was mixed in with some snow at the onset. Surfaces were covered over by this activity and even the existing residual was not able to hold it off. The snow covered all areas but only caused light activity in Rockford and McHenry County. Temperatures remained between 29-32 degrees during the event. Officially O'Hare had 0.4" snow and Romeoville had 1"
