

Thursday January 9, 2025

7:00 PM Temperature: 26

ACTION ALERT

Light snow is scheduled to work its way into our area during the early morning on Friday and impact the morning rush hour. Towards and after daybreak the intensity will pick up, the steadier snow and peak intensity will then lessen toward midday/early afternoon. With snow activity happening during the daytime hours and vehicles present we have crews out during the overnight hours Friday PM into Saturday AM performing any cleanup services that may be necessary along with a refreeze chance due to a snow shower risk during this period.

Our VIP Red Alert crews will be dispatched during the overnight/early Friday morning hours visiting and servicing sites as activity begins. If you are in need of any snow related service issues please call our 24 hour snow emergency number at 847-344-1027.
