

STORM SUMMARY 12-27-20

A fast moving disturbance pushed through the region in the evening hours of December 27th. It brought a relatively short period of flurries and light snow between 5-9pm. Temperatures during this time started in the upper 30's before settling to the freezing mark of 32 degrees towards the events conclusion. Totals ranged across the area from a coating to ½" of snow. Zero tolerance crews were dispatched for properties relatively I90 northward and across the Illinois/Wisconsin border which received hardscape surface coverage.
