

## STORM SUMMARY 3-14 & 15-17

Due to Lake effect activity during the business hours of 3-14 crews were dispatched at 11pm to work overnight and check every lot for additional snow where cars were parked, push back snow and tighten up corners of parking spot and apply deicing material where needed to create a safe environment for the start of the Wednesday business day. Temperatures were cold during the overnight hours and reached a low of 15 degrees and winds gusts up to 25 mph.
