

STORM SUMMARY 3-4-17

A fast moving upper level feature generated some light snow and snow showers across the area till 4-6am. While air temperatures were in the 27-29 range during the snow event, pavement temperatures stayed slightly above 32 which resulted in mainly wet pavements. The surface temps did briefly lower below 31 degrees 5-7am which allowed for refreezing of water around dawn.

Officially O'Hare Airport had .1 snow, RFD .9 and Romeoville .3.
