

STORM SUMMARY 1-28 & 29-18

Flurries and snow showers pushed down from Wisconsin late afternoon and evening on the 28th. This activity continued lightly into the 29th. Some areas had some sleet mixed in.

There was some concern for patchy freezing drizzle as well as some refreezing. Areas reaching out to Route 59 eastward received some lake effect snow on the morning of the 29th.

Salting was performed as a preventative measure and to take care of dusting coverage's to parking and sidewalk surfaces.
