

## STORM SUMMARY 2-10-18

Another band of light snow and snow showers moved into the area during the early morning hours on 2-10. This was a second phase to the large system on 2-8 / 2-9 and most areas saw a good break in activity from late afternoon/evening till after 2-3 am on 2-10. Most areas only received another ½" to 1" while the north region received totals that hit as high as 2-3". With the colder temps plowing and salting was needed across the entire area.
