**12:00PM Temperature: 12**

## STORM ALERT

Snow spreads into Rockford 5-7pm and Chicago areas 7-9pm. Heaviest snowfall overnight and Friday am. Models hint that there maybe some banding of the snow intensities in very narrow areas which will be hard to pinpoint. In these areas overnight, snow rates maybe an inch an hour. Otherwise, rates will be around ¼ to ½ inch per hour. Snow will try to shrivel up late afternoon/evening Friday and then more possible light snow towards dawn Saturday and Sunday.

*For all 2" and over Multifamily complexes we will start clearing driveways during the overnight hours as we hit and surpass the 2" threshold and look to complete one pass by late AM and then return to complete a final pass most likely Friday evening into Saturday morning. Sidewalks are always a secondary priority to roadways, cul-de-sacs and driveways and are to be completed once at the end of the overall event, however we will have sidewalk labor onsite to help shovel away from garage doors while machines or trucks are working.*

ALERT OVERVIEW					
START TIME:	6-9PM Thur	ENDING TIME:	4-7PM Fri	TOTAL:	6-12" Thur/Fri
DURATION OF PRECIP:	Main Event 24 Hrs More Sat & Sun	INTENSITY:	Moderate		1-2" Sat 1-2" Sun AM
COMMENTS:	*Winter storm warning 6PM to 6PM Friday				

### POTENTIAL HAZARDS:

Rapid snow accum (1"+ per hr)	X	Night/AM widespread refreeze	
Blowing / drifting of snow		Night/AM patchy refreeze	
Very low visibility at times	X	Accum. During rush hour	X
Long storm duration (+12 hrs)		Quick untreated pavement accum	
Down trees/limbs/power lines		Temps during event below 20°	X
Patchy ice accumulation		Long duration (+24h) below 32°	X
Severe widespread ice accum		Rapid temperature drop	
Sleet accumulation		Repeated Dustings Possible	

### SNOW CONFIDENCE:

1-3 Inches	0%
3-5 Inches	5%
5-9 Inches	55%
9-12 Inches	40%
