

## STORM SUMMARY 11-16-18

Snow flurries and snow showers spread over the area from 7:30pm on the 15<sup>th</sup> into the early morning hours on the 16<sup>th</sup>. The air temperature reached as low as 29 degrees at 10pm on the 15<sup>th</sup> with temperatures rising during the overnight hours. This activity caused a black ice / glazing effect for the start of Friday morning. Once again zero tolerance salt trucks and sidewalk crews were sent out in the early morning to treat surfaces in order to create a safe environment.
