

## STORM SUMMARY 4-5-18

After deicing operations were completed during the later morning hours on the 4<sup>th</sup> some precipitation continued in the form of rain throughout the day. As temperatures began to drop again for the overnight hours surfaces that were not treated during the previous nights event; areas further south such as Joliet, Monee and Peotone did not have any salt residual. These areas required service to keep conditions safe and ice rinks from not forming.
