

STORM SUMMARY 1-27 & 28-19

This was a 2 part event. An Alberta clipper system began spreading snow into the area between 9-11pm on 1-27. Snow diminished to very light snow and freezing drizzle 7-9am and this activity diminished early afternoon. A second round of light snow pushed down from Wisconsin 3-5pm and it cleared the area from northwest to southeast 9-11pm. This second batch of snow produced .2 new for Rockford and on the average .5 to 1.5 inches for the Chicago area. All crews were sent back out to plow and salt all properties again. O'Hare officially had 5.0 inches which brings the season total to 31.2. Rockford had 5.3 inches and seasonal total of 40.2. Romeoville had 7.6 inches for a seasonal total of 24.5.
