

STORM SUMMARY 2-10 & 11-19

Light snow spread into the area late morning and early afternoon. Activity diminished in its intensity during the evening. Additional snow bursts and freezing drizzle occurred during the overnight and morning hours on 2-11 which worsened surfaces. Activity averaged between .5 to 1.5" Inches with temperatures reaching the upper 20's in the afternoon on 2-10. Zero Tolerance accounts were serviced during the activity and once again during the early morning hours to prepare surfaces for the start of the Monday morning work day.
