

Tuesday October 29, 2019

10:00PM Temperature: 39

ACTION ALERT

Similar to the Rockford area this morning, we will see more periods of mixed rain and snow tonight into early Thursday night. We will be checking surfaces Wednesday morning and service where necessary. Sidewalks and elevated surfaces have the best chance of accumulation or slushing up but most will be on grass surfaces. Thursdays activity will be mostly during the day and will also help keep most accumulation to grass surfaces. As most clients are still outside their normal seasonal service dates, we will be monitor surfaces for all our 24 hour emergency facilities such as hospitals. If you would like your site monitored and serviced if needed please contact your VIPSG representative as soon as possible.

ALERT OVERVIEW					
START TIME:	12-3amWed	ENDING TIME:	Thur Evening	TOTAL:	1"-2" overnight all snow around 5am
DURATION OF PRECIP:	Ongoing until Thursday evening	INTENSITY:	Light rain/snow /drizzle		1"-3" Wed Night/Thurs Night Most accumulation on grass or elevated surfaces
