

STORM SUMMARY 11-10 & 11-19

Light rain spread into the area 8-9am. Rain changed to snow from north to south 10pm to midnight north of I88 except in eastern Cook County where the changeover from rain to snow did not occur until 5-6am on 11-11. Also except for some light rain prior to midnight, snow did not spread into La Salle, Kendall, Will and Grundy Counties until 4-6am. Snow diminished from northwest to southeast 4-6pm. Heaviest snowfall was in the north suburbs and amounts really dropped off near and south of I88 where the snow took the longest to get going. O'Hare officially had 3.4 inches which was a record for 11-11. Rockford had 3.6inches.
