

STORM SUMMARY 4-17-20

Snow began to fall Thursday evening and continued throughout the day on Friday. Air temperatures dropped to freezing around midnight and as the snow intensity continued it helped drop ground temperatures to the freezing point around 2-3am. Crews were dispatched at 1am to service all zero tolerance and icy conditions properties. Most areas received 1-3” inches which the majority of this accumulation was on the grass. Parking lots and sidewalks did cover and dust over in most areas and parking garages once again had to be plowed.
